

Dear Bride and Groom,

it was a pleasure to receive your request, thank you!

Please, find below a brief summary of what I could do for Your Wedding Reception.

I had the luck of dealing with events like yours since more than twenty already and my advice would be to use different kinds of music in every moments of the day, which will definitely be very intense.

Your special day at the Casale will begin with the **Ceremony**. It will be a very important and highly emotional moment.

It will be essential to ensure that your guests can hear your voices.

I could bring a basic music station with a radio microphone for you and for the celebrant.

The day will proceed, according to your wishes, with the cocktail moment.

Here, I could set-up another full equipped music station to play and mix your spotify list music in this area.

If you like something new, a Sax could play with me.

If you prefer I could manage a live band for you aperitif. (you will find the Pdf attached)

Below, you'll find some links where Max Soggiu, the saxophonist start to play during the cocktail time or during the dinner of afterdinner

It will be essential creating together a music playlist to be played as background music during your dinner.

The DJ will personally take care of this moment. With his equipment and microphones, he/she will make the *speech* moment possible.

He will be available to accomodate your requests and he will also be happy to work with your suggested playlists (possibly with spotify).

After your first dance, it will be a pleasure for me to make you enjoy the moment and dance together with your guests mixing the different kinds of music you like.
